+91 8955814728   anrudhrathore2003@gmail.com   Jaipur, Raj   /in/anirudh-singh26/   /Anirudh-Singh-26

## EDUCATION

- BACHELOR'S DEGREE**  
Computer Science and Engineering  
JECRC University, Jaipur  
July, 2026
- SENIOR SECONDARY EDUCATION**  
The Cambridge School, Jaipur  
July, 2022

## SKILLS

- Technical Skills:** Java, Dsa, JavaScript, React.js, Bootstrap, Tailwind CSS, Node.js, Express.js, MongoDB, REST APIs, Docker, CI CD pipeline, NextJs, TypeScript .
- Tools & Platforms:** Git, GitHub, Postman, Vercel, Render.
- Core Strengths:** Full Stack Development, Auth. & Security, Modular Architecture.
- Soft Skills:** Teamwork, Remote Collaboration, Leadership, Quick Learner, Clear Communication

## CERTIFICATES

- Tutedude Buildathon :-**  
72-Hour Online Hackathon  
Tutedude | June 2025
- AWS Solutions Architecture Virtual Experience :-**  
Job Simulation  
Forge | May 2025
- MERN Stack Development Certification :-**  
(Node.js, Express.js, MongoDB, SQL, Git & Github)  
Various Platforms | 2024–2025

## SUMMARY

I am highly enthusiastic about Full Stack Web Development and eager to initiate my career in this field. I possess strong communication and teamwork abilities, and I am driven by a genuine passion for building innovative web applications. I have been actively developing personal projects to enhance my skills, and I am seeking an entry-level role where I can expand my knowledge and contribute effectively to a team. I am przzepared to apply my current skillset to create valuable solutions.

## INTERNSHIP

### Full Stack Development INTERN

**Xebia · Remote · June 2025 – July 2025**

- Built MERN stack apps with JWT auth, REST APIs, and Razorpay integration.
- Used Postman, Git, GitHub in Agile workflows.
- Attended Azure AZ-204 training (Microsoft Solutions Development).

## PROJECTS

- CrowdSpark – Crowdfunding Platform:**  
(Xebia Internship · June 2025 – July 2025)  
Led full-stack development of a crowdfunding web app using the MERN stack. Implemented campaign creation, Razorpay payments, role-based access, and real-time notifications via Socket.IO. → Live | GitHub
- Velora – Stock Trading Web App: (Personal Project · Mar 2025 - Apr 2025)**  
Created an interactive stock trading interface in React with real-time data visualization, portfolio tracking, and performance analytics to simulate trading scenarios. → Live | GitHub
- MAVIX – AI-Powered Chat Platform: (Personal Project · July2025 – Aug2025)**
- Built a SaaS-based AI chat platform delivering real-time responses, secure user/session management, role-based access, and a scalable modular architecture for feature expansion. → Live | GitHub

## ACHIEVEMENTS

- Actively participated in multiple online coding competitions and hackathons
- Contributed to open discussions and group reviews during technical workshops
- Successfully led and presented final project demos in front of evaluators without team support
- Recognized by peers for effective problem-solving and quick debugging during team projects
